

Amendments to the Specification:

Please replace paragraph [0004] with the following amended paragraph:

[0004] Systems (e.g., wireless systems such as an OFDM (Orthogonal Frequency Division Multiplexing) system), methods, and apparatuses including computer-readable mediums ~~A wireless system, e.g., an OFDM (Orthogonal Frequency Division Multiplexing) system,~~ may utilize pilot symbol structures including two pilot symbols with pilot information on alternate tones. The tones not containing pilot information may be nulled out. The pilot information in one symbol is transmitted on mirror tones in another of the symbols.

The disclosure as presented in amended paragraph [0004] is supported in the original application as filed, and no new matter has been presented. The added portion shown in amended paragraph [0004] finds support at least in the claims of the originally filed application.
